

# Learning Live 2022 Presentations

30th November to 1st December

## **A New Carbon Tracker for Golf Organisations**

Sam Thomas - GEO Foundation

### **Learning Outcomes**

A look at a carbon tracking tool for golf focused companies and the process of reducing carbon in your company's day to day operations.

### **Brief / Outline of the projects in these case studies**

Carbon Tracker for Golf Organisations

### **What challenges did you face during this project?**

From scoping what is tracked to gathering accurate data - the process of credibly tracking and offsetting unavoidable carbon emissions.

### **What innovations did you employ in this project?**

Online capture of data either month by month or annually and connecting that data to a set of certified carbon offset projects for golf.

### **What Went Well or What Went Wrong?**

Building up data sets to provide quick insights to company's on effective methods of reducing carbon emissions through day to day business operations and choices.
